

# ANNALS OF THE RHEUMATIC DISEASES

The EULAR Journal

*Annals of Rheumatic Diseases* is the premier clinical rheumatology journal in Europe covering all aspects of rheumatology and includes peer-reviewed material of a high standard. Articles cover the spectrum of musculoskeletal conditions, arthritic disease, and connective tissue disorders.

## Wide coverage

ARD publishes basic, clinical, and translational scientific research. Concise scientific communication is encouraged.

ARD publishes educational papers including reviews, "how to" articles and educational cases that focus on problems faced in clinical practice.

## Broad reach

In each monthly issue we publish extended & concise reports, letters, editorials and review articles.

ARD is a truly international journal with a global readership and editorial board and papers originating worldwide.

## Great online features and functionality

The *Annals of Rheumatic Diseases* website contains all the content from the print version as well as valuable online features that take advantage of the latest technology.

**Find content quickly** – Sophisticated searching, subject collections, email alerting, RSS feeds and full text links from cited references are all available on the site.

**Interactive services** – Personal folders, citation trackers, electronic letters, education and more.

**Online First** – Most articles are published online shortly after they are accepted and well before they are published in print.

**Online submission and peer review** – Our simple and secure online submission service provides a faster peer review process and 24 hour access to information on your paper's status.

**Find out more** – Our 'click guide' details all the outstanding features of the *Annals of Rheumatic Diseases* website. Download a copy from the journal homepage.
