

Heart

Heart is an international peer review journal that keeps cardiologists up to date with advances in the diagnosis and treatment of cardiovascular disease. Topics covered include coronary disease, electrophysiology, valve disease, imaging techniques, congenital heart disease (fetal, paediatric and adult), heart failure, surgery and basic science.

Includes many special features

Education in Heart – an extensive continuing professional development programme for established consultants and a useful resource for cardiologists in training. Each issue contains 3 Education in Heart articles enhanced with online multiple choice questions and interactive cases

Heart reviews – authoritative assessments of contemporary subjects from recognised experts

JournalScan – highlighting important papers from outside the cardiology literature

Supplements – Subscribers to *Heart* also receive peer reviewed educational supplements

All this information makes the journal essential reading for those involved in all aspects of cardiology.

Great online features and functionality

The *Heart* website contains all the content from the print version as well as valuable online features that take advantage of the latest technology.

Find content quickly – Sophisticated searching, subject collections, email alerting, RSS feeds and full text links from cited references are all available on the site.

Interactive services – Personal folders, citation trackers, electronic letters, education and more.

Online First – Most articles are published online shortly after they are accepted and well before they are published in print.

Online submission and peer review – Our simple and secure online submission service provides a faster peer review process and 24 hour access to information on your paper's status.

Find out more – Our 'click guide' details all the outstanding features of the *Heart* website. Download a copy from the journal homepage.

See your work published in *Heart*
